KARAN THAKUR

GAME PROGRAMMER

karan.snrhp@gmail.com | +91 6230269281 | Sundernagar, Himachal Pradesh, India

About

Game Design and Programming student at Chitkara University with hands-on experience in Unity game development, level design, and 3D asset creation. Passionate about building engaging gameplay systems and interactive player experiences. Familiar with prototyping, game mechanics, and real-time applications using Unity and Blender, with a strong eagerness to grow in the game development industry.

SKILLS

- **Programming Languages:** C, C++, C#, JavaScript, TypeScript
- **Software / Tools / Engines:** Unity Engine, Blender, Adobe Photoshop, AWS (S3, EC2), React
- **Technical Skills / Concepts:** Object-Oriented Programming (OOP), Basic Unity Scripting, Game Development, SWOT Analysis
- **Professional Skills:** Leadership, Team Collaboration, Project Management, Time Management, Creativity & Innovation, Problem Solving, Critical Thinking, Communication

Education

Secondary (Class X) – CBSE DAV Public School Sundernagar *2020-2021*
Percentage: 90%

Senior Secondary (Class XII) – CBSE Mahavir Public School *2022-2023*
Percentage: 85%

Bachelor of Engineering in Computer Science and Engineering (CGPA: 9.48) *2023-2027*
Chitkara University (Specialization: Game Development / Computer Science)

Projects

Boomerang (3D Game) *2025*

- Developed a 3D obstacle-based game where the player crosses a river using stepping stones as dynamic hurdles.
- Focused on timing-based gameplay, player movement, and physics interactions in Unity.

Forest Runner (2D Game – Prototype) *2025*

- A 2D platformer game involving enemy encounters, boss fights, and environmental challenges.
- Worked on level layout, enemy behavior, and player controls.

Office Wars (Card Game) *2025*

- Designed a strategy-based card game inspired by office dynamics.
- Created core rules, card mechanics, and progression logic focusing on balance and replayability.

Hand Gesture Based PPT Controller *2024*

- Designed a strategy-based card game inspired by office dynamics.
- Created core rules, card mechanics, and progression logic focusing on balance and replayability.
